Sir:

ELECTION

The applicant hereby makes the following election of species and claims. Regarding the restriction requirement the applicant elects the first group I for prosecution, identified in the Office Letter as claims directed to a stabilizer pad, classified in class 248, subclass 647. This included originally submitted claims 1-14. In view of the election, the non-elected claims, namely claims 15-20 have been canceled from this application without prejudice or disclaimer. The applicant has also added new claims 21-26 that are also directed to the elected subject matter.

In addition to the above election, the applicant also elects the species of the invention in Figs. 67-72. It is also believed that all claims, as now amended and added, are directed to at least that elected species. The applicant now presents amended and new claims for consideration by the Examiner.
